JASON'S CRADLE®
QUITE SIMPLY WE SAVE LIVES...

- The Standard Cradle is simply fixed to the deck or rail to enable deployment within seconds
- The Standard Cradle can be easily rolled up for stowage
- Deployment of the Cradle forms a non-collapsible scoop
- The casualty is guided into the cradle head first
- A strop and/or hauling lines are pulled to close the loop
- A co-ordinated & methodical lift takes place & the casualty is retrieved by rolling onto the deck in the medically preferred horizontal position
- Bespoke Standard Cradles range from 530mm to 1050mm wide and 2290mm to 6870mm long

All Jason's Cradle® units carry our manufacturer warranty of 3 years excluding clips, strops, hauling lines, stowage bags and other additional fittings that carry the usual 1 year manufacturer's warranty.
