

MUSTANG SURVIVAL

2015 CANADIAN RECREATION & PROFESSIONAL CATALOGUE

MUSTANG SURVIVAL WE SAVE LIVES FOR A LIVING

At Mustang Survival we are committed to driving innovation throughout all our product lines and always seek ways to refine our products and processes to better serve our customers.

To continue leading the market in elite dry suits, our highly qualified product development teams have invested their expertise to enhance our dry suits, and we are excited to share these changes with you.

Updates include improved wrist cuffs for easier donning and doffing, improved neck collar for easier Rapid Repair, as well as aesthetic updates. For more information on our new and improved products, refer to the product pages in this catalogue or visit www.mustangsurvival.com.

NEW FOR 2015

INFLATABLE PFDS

We're proud to introduce three new inflatable PFD designs this year. Headlined by the new Elite™ Inflatable PFD, the M.I.T. 100 and HIT also have exciting new updates.

CAMO

In 2015, all camouflage products will transition to the highest-rated 3D pattern available: Mossy Oak® ShadowGrass® Blades®.

VISIBILITY

Fluorescent Yellow Green is one of the most visible colors in a water rescue scenario. Look for improved in-water visibility from many of our 2015 products and check out mustangsurvival.com/visibility for more information.

WATER SPORTS VESTS

New colorways and new design lines inspired by our elite tactical operators. Because sometimes a little edge is a good thing.

SENTINEL™ SERIES – WATER RESCUE DRY SUIT

UPDATED

MSD624

The MSD624 is a waterproof and breathable constant wear water rescue dry suit ideal for flood, swift water & ice rescue. By reducing bulk and increasing range of motion, the Sentinel™ Water Rescue Dry Suit makes an excellent dry suit for the most demanding water rescue technicians. Updated wrist cuffs for easier donning/doffing, improved neck collar for easier rapid repair, and aesthetic updates.

SIZE	Mobility Based Sizing™ – Visit www.mustangs survival.com/mobility
COLOURS	 Yellow/Black  Fluorescent Yellow-Green/Black (Available Spring 2015)
CUSTOMIZATION	Agency markings, alternate wrist and neck seals, and other colours available by special order
CLO	Immersed Clo 0.66 when worn with Mustang Survival Dry Suit Liner MSL600 and silk weight thermal underwear (see p. 8)

*All reinforced areas incorporate drainage to preclude entrapped water.

WATER RESCUE DRY SUIT

MSD576

The MSD576 is designed for stations where rescue technicians do not have personal issue dry suits. Based on the Sentinel Series Water Rescue dry suit, the MSD576 includes many of the features found on the MSD624 in a reduced size range. New colorway Fluorescent Yellow-Green/Black available in Spring 2015. For an expanded list of specifications, please see p. 7.

SENTINEL™ SERIES BOAT CREW DRY SUITS

UPDATED

MSD634 / MSD635 (with drop-seat)

The Sentinel™ Series Boat Crew Dry Suits are waterproof breathable constant wear dry suits designed for search and rescue (SAR) and law enforcement operations. Constructed with military grade GORE-TEX® BD6.5 waterproof breathable fabric and with ballistic nylon reinforcement in high wear areas, these dry suits are ideal for crew members who don't intend to enter the water but require hypothermia protection in case of accidental immersion. Updated and wrist cuffs for easier donning/doffing, improved neck collar for easier rapid repair, and aesthetic updates.

SIZE	Mobility Based Sizing™ – Visit www.mustangsurvival.com/mobility
COLOURS	 Orange/Black
CUSTOMIZATION	Agency markings and other colours available by special order
CLO	Immersed Clo 0.66 when worn with Mustang Survival Dry Suit liner MSL600 and silk weight thermal underwear (see p. 8)
AUTHORIZATION	DFO, CCG, RCMSAR, Ship Rider

*All reinforced areas incorporate drainage to preclude entrapped water.

SENTINEL™ SERIES HEAVY DUTY BOAT CREW DRY SUIT

MSD644 MSD645 (with drop-seat)

Our boat crew suit is also available in a heavy duty two layer suit with a GORE-TEX® dry suit layer and CORDURA® protective outer layer. Only 8 ounces heavier than our standard suit, this heavy duty dry suit offers excellent versatility and durability.

DRY SUITS

SENTINEL™ SERIES TACTICAL OPERATIONS DRY SUIT

UPDATED

MSD674 TO

The MSD674 TO is a waterproof & breathable constant wear dry suit ideal for users engaged in potentially hostile military and law enforcement maritime operations. It was specifically designed with feedback from Naval Special Warfare, select US federal tactical units, state & local police SWAT teams, helicopter and HART teams.

FEATURES

- Military grade BD6.5 GORE-TEX® waterproof & breathable dry suit
- Low-profile, lightweight and corrosion resistant TIZIP® front entry and relief zippers
- Two point removable suspender system
- Rapid Repair neoprene wrist seals (latex optional)
- Rapid Repair CCM™ adjustable neck seal (neoprene or latex optional)
- Ballistic nylon reinforced elbows, knees, seat and wrist and leg over cuffs
- Flexible molded foam knee and elbow pads help prevent injury
- Velcro® waist adjustment with loops for removable duty belt keepers
- Expanding pockets on arms, thighs, and calves
- Updated wrist cuffs for easier donning/doffing, and improved neck collar for easier Rapid Repair

SIZE	Mobility Based Sizing™ Visit www.mustangsurvival.com/mobility
COLOURS	 Sepia (MAS gray) (shown)  Black (special order)
CUSTOMIZATION	Agency markings, alternate wrist and neck seals, and other colours available by special order
CLO	Immersed Clo 0.66 when worn with Mustang Survival Dry Suit Liner MSL600 and silk weight thermal underwear (see p. 8)

DRY PROTECTIVE LAYER (DPL)

NEW

MSD406

The MSD406 is a windproof, waterproof and breathable constant wear base layer that provides environmental protection while on operational missions where there is risk of extreme weather or immersion. Developed with input from military aviation users, the MSD406 is designed to be worn underneath uniforms and equipment.

FEATURES

- Waterproof breathable military grade BD6.5 GORE-TEX®
- Low-profile, lightweight and corrosion resistant TIZIP® front entry and relief zippers
- Rapid Repair latex wrist seals (neoprene optional)
- Rapid Repair CCM™ adjustable neck seal (neoprene or latex optional)
- Two-point removable suspender system
- Athletic fit that can be worn comfortably under a uniform or civilian clothing
- Integrated stretch panels in upper back and thighs for added mobility and comfort

SIZE	Mobility Based Sizing™ Visit www.mustangsurvival.com/mobility
COLOURS	 Black
CUSTOMIZATION	Agency markings, and alternate wrist and neck seals available by special order
CLO	Immersed Clo 0.66 when worn with Mustang Survival Dry Suit Liner MSL600 and silk weight thermal underwear (see p. 8)

MOBILITY BASED SIZING

Mobility Based Sizing™ offers a large range of semi-custom sizes that optimize fit, comfort and functionality without the expensive custom price tag and long lead times. Offers expanded sizing (such as short and tall sizing) with 24 total sizes.

Available in our Sentinel™ Series dry suits and other suits where noted in the sizing chart.

Visit www.mustangsurvival.com/mobility for more information.

SENTINEL™ SERIES AVIATION DRY SUIT

NEW

MSD697

The Sentinel™ Series Aviation Dry Suit is a waterproof and breathable, fire-resistant constant wear dry suit ideal for extended over-water missions in colder climates. Developed with input from US Army Aviation and USCG Aviation, the MSD697 is a full-featured dry suit that provides unparalleled comfort and mobility.

FEATURES

- Waterproof breathable tri-laminate NOMEX®/ GORE-TEX® shell fabric (MIL-DTL-32149).
- Rapid Repair latex wrist seals (neoprene optional)
- Low-profile, lightweight and corrosion resistant TIZIP® front entry, relief, and drop seat zippers
- Two-point removable suspender system
- Rapid Repair CCM™ adjustable neck seal with FR protective collar
- Ballistic nylon reinforced molded foam knee and elbow pads, and reinforced seat

SIZE	Mobility Based Sizing™ Visit www.mustangsurvival.com/mobility
COLOURS	 Sage/Black
CUSTOMIZATION	Agency markings, alternate wrist and neck seals, and other colours available by special order
CLO	Immersed Clo 0.66 when worn with Mustang Survival Dry Suit Liner MSL600 and silk weight thermal underwear (see p. 8)

SENTINEL™ SERIES AVIATION RESCUE SWIMMER DRY SUIT

MSD660 (Fire Retardant)

The MSD660 is a specialized dry suit designed for US Navy Aviation Rescue Swimmers. The suit is designed to aid in hypothermia protection during surface operations in or on the water when worn with insulating undergarments.

FEATURES

- Single layer waterproof, breathable tri-laminate NOMEX® / GORE-TEX® shell fabric (MIL-DTL-32149).
- NOMEX® FR cover over neck seal
- Rapid Repair Latex neck seal and wrist seals
- Reinforced molded foam knee and elbow pads, and reinforced seat
- Low-profile, lightweight and corrosion resistant TIZIP® front entry and relief zippers
- SOLAS grade retro-reflective tape on the upper shoulders and arms for increased visibility
- Two-point removable suspender system

SIZE	Mobility Based Sizing™ Visit www.mustangsurvival.com/mobility
COLOURS	 Orange/Black
CUSTOMIZATION	Agency markings, alternate wrist and neck seals, and other colours available by special order
CLO	Immersed Clo 0.66 when worn with MSL600 and next to skin silk weight thermal underwear (see p. 8)

SENTINEL™ SERIES AVIATION RESCUE SWIMMER DRY SUIT

MSD660 AF (Non Fire Retardant)

The MSD660 AF is a specialized dry suit designed to aid in hypothermia protection during surface operations in or on the water when worn with insulating undergarments. Also in use with offshore helicopter transport operations.

FEATURES

- Military grade GORE-TEX® BD6.5 waterproof and breathable dry suit shell fabric
- Rapid Repair Technology™ latex neck and wrist seals
- Reinforced molded foam knee and elbow pads
- Ballistic nylon reinforced seat, knee, and elbows
- Low-profile, lightweight and corrosion resistant TIZIP® front entry and relief zippers
- SOLAS grade retro-reflective tape
- Left arm low profile zippered shoulder pocket with dual holder
- Two-point removable suspender system

SIZE	Mobility Based Sizing™ Visit www.mustangsurvival.com/mobility
COLOURS	 Orange/Black
CUSTOMIZATION	Agency markings, alternate wrist and neck seals, and other colours available by special order
CLO	Immersed Clo 0.66 when worn with MSL600 and next to skin silk weight thermal underwear (see p. 8)

SENTINEL™ SERIES – DRY SUIT LINER

MSL600 GS / MSL601 GS (with drop seat)

This dry suit liner provides extra insulation protection when in cold water and also helps reduce the thermal burden out of the water.

FEATURES

- A combination of Polartec® Classic 200 and Polartec® Power Stretch 4-way stretch with a durable, smooth outer layer that is abrasion resistant, and a soft inner layer that pulls moisture away from the skin
- Less bulky fit as a result of stretch fleece integration in lower back, arms and legs
- Specifically designed to work with Sentinel™ Series dry suits and is compatible with any Mustang Survival dry suit
- Fitting straps at the thumbs and ankles
- Machine washable

SIZE	New Mobility Based Sizing Visit www.mustangsurvival.com/mobility
COLOURS	■ Black
CLO	Provides up to 0.66 immersed Clo when worn with a Mustang Survival dry suit and silk-weight next to skin thermal underwear (see p. 8)

RAPID REPAIR TECHNOLOGY™

SIMPLE DRY SUIT REPAIRS IN LESS THAN AN HOUR

RE0001-RE0012

Small leaks and blown out seals with traditional dry suits means being out of service for weeks for repair or replacement. This can have a direct impact to a unit, as a crewmember without a dry suit results in a shorthanded crew. We recognize this is not an option.

Mustang Survival Sentinel™ Series dry suits are the only suits on the market with Rapid Repair Technology™. This innovative repair methodology enables users to replace wrist and neck seals and repair minor leaks on site and with basic tools (RE0001). Within less than an hour, a damaged dry suit can be back in operation.

Visit www.mustangsurvival.com/rrt for more information

NEOPRENE SURVIVAL HOOD

MA7348

- Provides increased thermal protection
- Includes stowable face shield
- Available in red

75' WATER RESCUE PROFESSIONAL THROW BAG

MRD175

- Designed for water rescue professionals
- Ease of re-loading even with gloved hand
- 75' of 3/8" (1 cm) nylon and polypropylene rope
- 2000 lb breaking strength
- True 75' from knot end to knot end
- Accepts APALS mini strobe on bag

THROW BAG WITH 75' ROPE

MRD075

- 75' of 9mm multi-filament polypropylene rope
- Mesh top for quick drying
- Retro-reflective tape
- Light stick holder
- Quick release buckles

HYPOTHERMIA PROTECTION

In just 20 minutes, cold water can deprive you of all mental and physical capacities, leading to hypothermia, unconsciousness and even death. Our team of engineers have done extensive research to understand cold-water survival. How long a person can survive in cold water primarily depends on the water's temperature, exposure time, and the thermal insulation of the victim's protective clothing.

To create the most effective protection attainable, we begin by evaluating the clothing's insulation (measured with the unit "Clo").

We determine the rate at which heat is lost from the body, as well as the difference in temperature between the skin and the water. From these values, predictions can be made of the rate at which a person's body temperature will drop in cold water.

Our products are interlined with our exclusive AirSoft™ closed cell foam. This foam not only provides maximum insulation against the cold, it also keeps you afloat to protect you from drowning.

What is a "Clo" and what does it mean?

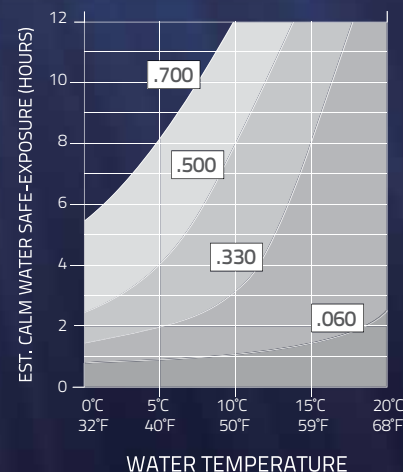

"Clo" is a measurement of the thermal comfort of a suit or device. One Clo represents the thermal comfort of an average person in business clothing in a room temperature indoor environment. Fractions of this thermal comfort are what are perceived when worn in the water. Each of the values are below 1.0 because water transfers heat out of the body 25 times faster than air.

Wearing a Mustang Survival suit will increase cold water survival time exponentially.

PROTECTION	CLO VALUE
NUDE	0.060
CLOTHED	0.100
MC5445 (p. 24) with MP4240 (p. 26)	0.170
MSD624 (p. 2)	0.660
IC9002 02 (p. 9)	0.960

SURVIVAL TIMES

This graph indicates random samples of Clo values and the corresponding estimation of survival time in calm water (assuming a thin person with a 5.5°F [3°C] drop in core temperature).

ICE COMMANDER® RESCUE SUIT

UPDATED

IC9001 03

For over 10 years, the Ice Commander® has set the industry standard in Personal Protective Equipment (PPE) for cold water & ice rescue. Reinforced in high abrasion areas and is 45% lighter than neoprene suits.

FEATURES

- Neoprene face guard reduces risk of water entry
- High performance urethane-coated nylon exterior makes cleaning and repairs easier
- Detachable closed-cell AirSoft™ foam inner buoyancy liner provides maximum flotation and thermal insulation.
- Updated liner attachment with zipper and velcro allows easier removal for cleaning and repair
- Ergonomic ice awl sleeve pockets
- Integrated self-adjusting safety harness
- Integrated insulated gloves with textured palms provide abrasion resistance and superior grip
- Neoprene knee reinforcement and padding improves protection and grip
- Note: IC9001 03 is not compatible with the MA2282 02 Ice Commander Replacement Liner

SIZE	Adult Universal: 50–150kg, 1.5–2.0 m (110–330 lbs, 4'11"–6'7")
COLOURS	 Gold
ACCESSORIES	Ice Commander Repair Kit: MA2290 Zipper Lubricant: MA2292

Note: The Ice Commander is intended for still/static cold water rescues only by trained professionals with the required and approved operating standards and requirements of their state or country.

ICE COMMANDER® RESCUE SUIT

GSA IC9002 02

For over 10 years, the Ice Commander® has set the industry standard in Personal Protective Equipment (PPE) for cold water & ice rescue. Reinforced in high abrasion areas and is 45% lighter than neoprene suits.

FEATURES

- Neoprene face guard reduces risk of water entry
- High performance urethane-coated nylon exterior makes cleaning and repairs easier
- Detachable closed-cell AirSoft™ foam inner buoyancy liner provides maximum flotation and thermal insulation. Liner can be removed for easy cleaning and repair
- Covered and watertight heavy duty diagonal entry zipper improves rescuer mobility, comfort and prevents water intrusion at the face opening
- Ergonomic ice awl sleeve pockets
- Integrated self-adjusting safety harness
- Adjustment straps on torso, legs and wrist for improved fit and increased range of motion

- Fits a wider range of sizes compared to other existing ice rescue suits
- Hood designed with back zipper adjustment for secure fit, with SOLAS reflective tape and Velcro® patch for light attachment

SIZE	Adult Universal: 50–150kg, 1.5–2.0 m (110–330 lbs, 4'11"–6'7")
COLOURS	 Gold
ACCESSORIES	Ice Commander Repair Kit: MA2290 Zipper Lubricant: MA2292

OCEAN COMMANDER®

OC8003 HR

When lives are at stake, having an immersion suit with the quality and performance of the Mustang Survival Ocean Commander® is essential. The OC8003 HR is lighter than conventional neoprene suits, is easy to get into and provides unhindered mobility for continued abandonment procedures. Fluorescent yellow-green for enhanced in-water visibility.

FEATURES

- Meets IMO RES. MSC.207 (81)
- 45% lighter than conventional neoprene suits
- Fluorescent yellow-green for improved visibility
- Removable gloves for improved dexterity
- Increased mobility to improve functionality in emergency situations
- Detachable inner buoyancy liner
- Welded nylon outer shell
- Water-tight zipper and seams
- Buddy line for tethering
- SOLAS grade reflective tape
- Neoprene wrist seals
- Includes lifting loop

SIZE	Adult Universal: 110–300lb, 4'11"–6'3"
COLOURS	 Fluorescent Yellow-Green
CLO	Immersed Clo 0.960 (see p. 8)
APPROVAL	Transport Canada / MED / SOLAS
ACCESSORIES	Replacement Liner: MA2281 Replacement Carry Bag: MA2001

NEOPRENE COLD WATER IMMERSION SUIT

MIS220 TC (adult small) / MIS230 TC (adult universal) MIS240 TC (adult oversize)

Designed for use in commercial operations, this immersion suit from Mustang Survival is a ship abandonment suit for workboats, transport vessels, drilling rigs, supply ships, and commercial fishermen.

FEATURES

- Easy to don in stormy conditions
- Five-fingered insulated gloves for warmth and dexterity
- Water-tight face seal
- Includes buddy line
- Includes lifting harness
- Ankle adjustments for a better fit
- 5mm fire retardant neoprene provides flotation and hypothermia protection
- Triple-sealed seam construction
- Non-slip, durable soles

SIZE	Adult Small (MIS220 TC) Adult Universal (MIS230 TC) Adult Oversize (MIS240 TC)
COLOURS	 Red
APPROVAL	TC Marine - CAN/CGSB 65.16-2005 and SOLAS Chapter III

INFLATABLE PFDS

Photo Credit: Dave Mercer, Facts of Fishing (L)

ELITE INFLATABLE PFD

It's time to push the limits of performance without compromise. Built on a revolutionary 3D chassis, the Mustang Survival Elite™ Inflatable PFD stays put at high speeds, lets you move the way you want and NEED to and provides automatic inflation powered by exclusive Hammar® Hydrostatic Inflator Technology.

Engineered specifically for the serious angler, the Elite Inflatable PFD has been designed to enhance every day on the water. The Elite has undergone rigorous testing including wind tunnel, high impact jumps and field testing with anglers including pros Chris Lane, Mike McClelland and Dave Mercer.

"WARNING - The new Mustang Elite Inflatable PFD is so comfortable your buddies may make fun of you after you forget to take it off when you get back to shore... well at least that's what my friends did!"

– Dave Mercer
Host of TV's Facts of Fishing and Bassmaster Emcee
www.factsoffishing.com

ELITE™ INFLATABLE PFD HYDROSTATIC INFLATOR TECHNOLOGY

NEW

MD5153 / MD5153 BC

This new 3D chassis improves mobility and comfort, introduces exclusive materials and features the best-in-class Hydrostatic Inflator Technology.

SIZE	Adult Universal Age: 16 yrs + Weight: 36 kg (80 lbs) + Chest: 76–132 cm (30–52")
COLOURS	Black (shown) Gray Red (BC Version)
APPROVAL	TC Approved PFD (TP14475), Type Performance: Type III
PATENTS	Patents Pending
RE-ARM KIT	MA5183

Aerodynamic 3D chassis reduces drag at high speed, and creates a slim profile to enhance mobility, fit securely and reduce neck fatigue

Wicking mesh liner improves breathability

Hydrostatic Inflator Technology, will automatically inflate when immersed in 4" or more of water

Sleek inflation handle prevents unnecessary interference or snags

Intuitive dual side adjusters

1.5" buckle

D-ring

Wide shoulder system eliminates neck fatigue

Shaped for optimum mobility and all day comfort

Lightweight fabric shell, also used in the body armor industry

MD5153 (Gray)

MD5153 BC (Red)

Bright fluorescent yellow-green inflation cell, for improved in-water visibility

115 N (26 lb) buoyancy when inflated, 1.5X standard foam PFDs

INFLATED

Back panel provides stability at speed

Mesh vent for enhanced breathability

INFLATABLE PFDS

HIT™ INFLATABLE LIFE JACKET HYDROSTATIC INFLATOR TECHNOLOGY

UPDATED

MD3157 (HIT™ Inflatable Life Jacket)

The first and only Transport Canada approved inflatable life jacket. Made for severe marine environments, the Hydrostatic Inflator Technology will automatically inflate the PFD when submerged in water to self-right an unconscious person in seconds. Now includes a fluorescent yellow-green inflation cell for improved visibility in rescue conditions. Visit mustangsurvival.com/visibility to view the results of a recent in-water visibility study.

SIZE	Adult Universal Age: 16 yrs + Weight: 40 kg (88 lbs) + Chest: 76–132 cm (30–52")
COLOURS	 Orange
CA APPROVAL	TC Approved Life Jacket (CAN/CGSB-65.7-2007), Class 1, Category 2A
RE-ARM KIT	MA7214

Self-righting flotation with head support

Minimum 150N (35 lbs) buoyancy when inflated, twice the flotation of foam work vests

Retro-reflective SOLAS tape on front & back outer shell

Hydrostatic inflator technology protects against inadvertent inflation

Custom-molded inflator cover reduces wear and protects inflator cap

Approved for use on inspected and uninspected vessels of any size

Durable heavy duty coated nylon outer shell offers improved puncture and abrasion resistance

Ideal for constant wear situations, hot, humid conditions and high-mobility requirements

Patented SecureZip™ closure designed originally for military operations

Strobe light holder, safety whistle, SOLAS reflective tape on fluorescent yellow-green inflation cell

INFLATED

HYDROSTATIC INFLATOR TECHNOLOGY (HIT™)

The Transport Canada approved Hydrostatic Inflator Technology (H.I.T.) is exclusive to Mustang Survival. Providing best-in-class inflation performance, H.I.T. operates on water pressure and will automatically inflate only when submerged in 4" or more of water. It will not advertently inflate in rain, spray or high humidity, making it the most reliable inflator on the market today and the preferred choice of government agencies, professional mariners and tactical teams.

HIT™ INFLATABLE PFD HYDROSTATIC INFLATOR TECHNOLOGY

NEW

MD3153 02 (auto) / MD3154 02 (auto with harness)

The award-winning HIT™ Inflatable PFD with Hydrostatic Inflator Technology is Mustang Survival's best-in-safety inflatable PFD. Designed for serious users with exclusive technology, it is designed for use in severe weather, and requires minimal inflator maintenance.

FEATURES

- Exclusive TC approved inflatable PFD with Hydrostatic Inflator Technology
- New bright fluorescent yellow-green inflation cell with SOLAS reflective tape, safety whistle and strobe light attachment
- Provides 150 N (35 lbs) buoyancy when inflated
- New lightweight outer shell fabric – used in the body armor industry – with reflective accents
- Zippered pocket for your phone, keys or license
- Neoprene Comfort Collar™ improves comfort and durability
- Available with integrated harness rings for sailing tethers (MD3154 02) in colors Red/Black, and Black.

SIZE	Adult Universal Age: 16 yrs + Weight: 36kg (80 lbs) + Chest: 76–132 cm (30–52")

INFLATED

HIT™ HEAVY ENFORCEMENT INFLATABLE PFD HYDROSTATIC INFLATOR TECHNOLOGY

MD3155 HE (auto)

Available exclusively from Mustang Survival, the MD3155 HE is specifically designed for law enforcement professionals facing hazardous conditions while on the job.

FEATURES

- Includes CO₂ Cylinder Ballistic Containment Pouch
- Beaded inflation handle reduces unintentional inflations
- Secondary inflation bladder for back-up flotation
- Damage-resistant inflator cover reduces wear and protects inflator cap
- Provides 150 N (35 lbs) of buoyancy when inflated
- Zippered pocket
- Durable and abrasion resistant exterior
- POLICE or RCMP artwork included, and custom artwork or text available for additional fees
- This product is available to professional Law Enforcement Agencies only

SIZE	Adult Universal Age: 16 yrs + Weight: 36 kg (80 lbs) + Chest: 76–132 cm (30–52")
COLOURS	<div> <div></div> Black </div>

DELUXE INFLATABLE PFD

MD3051 (manual) / MD3052 (manual with harness)
MD3053 (auto) / MD3054 (auto with harness)

Our line of Deluxe Inflatable PFDs combine the convenience of inflatable technology with enhanced safety features and incredible comfort for all day wear.

FEATURES

- Durable 500 Denier CORDURA® outer shell
- Zippered pocket for your phone, keys or license
- Bright yellow inflation cell with SOLAS reflective tape, safety whistle, and strobe light attachment
- Provides 150 N (35 lbs) of buoyancy when inflated
- Available in automatic or manual inflation
- Available with integrated harness rings for sailing tethers (MD3052 / MD3054)
- All models available in Red/Carbon/Black
- Only MD3052 and MD3054 available in Royal/Carbon/Black

INFLATABLE FISHING VEST

MIV10 (manual)

Excellent for fishing in warm weather, this Inflatable Fishing Vest is so comfortable and lightweight you might forget you're wearing a PFD. Activated by manually pulling an activation cord, the Inflatable Fishing Vest is lighter and cooler than regular foam vests but still offers the same flotation performance. Great to wear over a t-shirt or warmer layers while lake or river fishing.

FEATURES

- Six roomy storage pockets
- Manually inflates by pulling activation cord
- 70N (16 lbs) of buoyancy when inflated
- Sheepskin hook and fly patch

SIZE	S-XL
COLOURS	 Olive
RE-ARM KIT	MI5700
APPROVAL	N/A

RESCUE STICK™

MRD101 (auto)

The Rescue Stick™ provides rapid flotation assistance to a person at risk of drowning. Simply remove the baton shaped Rescue Stick™ from its bag and throw near the person. Once contact is made with the water, it automatically inflates in seconds to a large horseshoe shape that can keep the victim's head above water and afloat until help arrives.

FEATURES

- Can be thrown accurately 100 feet or further
- Automatically inflates in seconds when immersed in water providing rapid emergency flotation
- Provides 150 N (35 lbs) of buoyancy (more flotation than typical ring buoys)
- Can provide emergency flotation for multiple victims
- Easy to re-arm and repack
- MRD050 Training Rescue Stick™ accessory available

PATENT	US Patent No. 7,004,807
RE-ARM KIT	MA7206

INFLATABLE BELT PACK PFD

MD3071 (manual)

Recommended for paddlers, swimmers, wade fishermen and general recreational boaters. Fits around the waist like a belt, staying out of the way until you pull the inflation cord to provide 35 lbs buoyancy. Easy to wear and maintain. Features 3F inflator for easy inspection – green means it's ready to go! A great option for people looking for minimal bulk and wanting to control when their PFD inflates.

FEATURES

- Stays out of the way until activated
- Lightweight, ergonomic fit
- Manual inflation – inflates by pulling activation cord
- Provides 150 N (35 lbs) buoyancy when inflated – more than 2 times traditional foam PFDs
- Safety whistle
- Reflective piping on outer shell

ACCESSORY POCKET

MA6000

- Attaches to all inflatable PFD waist belts
- Ergonomically designed stowage provides easy access to personal survival equipment
- All seams are finished with additional reinforcement and a 400 Denier nylon outer shell
- Available in black or orange

LEG STRAP

MA3032

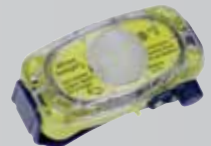

- Initially designed for a special operations mission, this accessory leg strap snaps around the PFD waist belt to provide a more secure fit
- Fits Mustang Survival PFDs with 1" or 1.5" webbing
- Appropriate for those wanting a more secure fit
- NOTE: Use of leg strap voids TC approval

BELT EXTENDER

MA7637 (1.5") MA7632 (2")

- Belt extenders allow wearers with larger size requirements to use most Mustang Survival inflatable PFDs
- MA7637 fits all PFDs with 1.5" buckles
- MA7632 fits M.I.T. 100 and PFDs with 2" buckles
- NOTE: Use of belt extender voids TC approval

ACR HEMILIGHT 2

MI5732

- Activates when in contact with salt or fresh water (deactivated by sliding the switch to the off position)
- SOLAS approved
- Easily attaches to the inflation cell of most Mustang Survival inflatable PFDs and immersion suits to increase in-water visibility.

UNIVERSAL SWIFT WATER RESCUE VEST

MRV150

The Universal Swift Water Rescue Vest is a high buoyancy 111N (25 lb) SAR PFD. With an easy to adjust donning system and layered flotation foam, this vest provides a comfortable and secure fit, which improves operational performance both in and out of the water.

FEATURES

- 111 N (25 lbs) Buoyancy
- Quick donning with 6 adjustment tabs to create a customized fit for users with chest sizes from 30-52"
- Layered flotation foam increases comfort to improve operational performance both in and out of the water.
- MOLLE webbing on both shoulders and back provide easy attachment points for accessories such as knives, scissors, throw bags or strobe lights
- Velcro® panel on back for attaching ID patches.
- Two large self draining pockets provide ample storage options
- Durable harness with 2" webbing tested to 730 lb requirements after accelerated weathering
- 500 Denier, CORDURA® outer shell with high visibility accents
- Quick release belt
- Drag handle

SIZE	Adult Universal Weight: 41 kg (90 lbs) + Chest: 76-132 cm (30-52")
COLOURS	 Fluorescent Yellow-Green/Black
APPROVAL	USCG Type V PFD with Type III Performance (approved for trained rescue personnel only; approved only when worn) Note: This product is not TC Approval

SAR VEST

MV5601

A lower buoyancy 75N (17 lb) SAR vest designed for extended wear by boat crews and rescue teams.

FEATURES

- 2" SOLAS grade reflective tape on shoulders and back
- High neoprene-lined collar
- Two large cargo pockets with easy-to-use pull tabs
- Fast tab radio clip

SIZE	S-XXXL
COLOURS	 Red
APPROVAL	TC Approved PFD (CAN/CGSB 65.11-M88)

UNIVERSAL FIT ADULT PFD

MV3005

This universal fit PFD provides incredible versatility for both recreational and industrial boaters alike. The perfect PFD to have onboard for drop-in guests or a rotating work crew.

DELUXE PADDLING VEST

MV5801

The Deluxe Paddling Vest has a low profile construction that contours to the body. The slim design and flexible foam cut provide an unhindered range of motion and eliminate chafing around the shoulders and arms. The large zippered pockets provide storage areas for snacks, sunscreen and all the other items you need to get you through a hard day's paddling.

FEATURES

- Shoulder, side, and waist adjustments for a customized fit
- Large, accessible zippered pockets
- Slim design and flexible foam cut provide unhindered range of motion and prevent chafing
- Dri-Lex® wicking lining
- 500 Denier CORDURA® outer shell
- SOLAS reflective tape on back

SIZE	S/M: 81–101 cm (32–40") chest M/L: 91–112 cm (36–44") chest L/XL: 101–122 cm (40–48") chest XL/XXL: 112–132 cm (44–52") chest
COLOURS	 Red/Carbon/Black
APPROVAL	TC Approved PFD (CAN/CGSB 65.11-M88)

DELUXE SPORTSMAN'S VEST

MV5901

This vest has a low profile construction that contours to the body and reduces bulk. The slim design and flexible foam cut provide unhindered range of motion and eliminate chafing around the shoulders and arms. The large beveled pockets will hold your fishing or hunting supplies, and the various attachment points will hold your radio and fishing net. Perfect for river, lake, and kayak fishing.

FEATURES

- Low profile construction
- Slim design and flexible foam cut
- Large beveled cargo pockets with secure closures
- Various attachment points
- Multiple adjustment points
- Rugged construction
- Dri-Lex® wicking lining
- Made with AirSoft™ flotation foam

CLASSIC FLOTATION COAT

MC1505

Based on the original Mustang Floater Coat™, the Classic Flotation Coat is engineered to provide comfort, warmth, and durability. The Coat's closed-cell foam insulation will provide flotation and in-water insulation to delay the onset of hypothermia in the event of accidental water immersion.

FEATURES

- Hypothermia and flotation protection
- Full length storm flap
- Zippered closures on front pockets
- Attachable hood (MA7136) can be purchased separately and is available in red, orange, and navy blue

SIZE	S-XXXL
COLOURS	<div>Orange</div> <div>Red (shown)</div> <div>Mossy Oak Duck Blind® (MC1505 CM)</div>

THERMOSYSTEM PLUS COAT

MC1535

Based on our award-winning technology, the ThermoSystem Plus Coat delivers flotation with enhanced hypothermia protection. Built with Mustang's High Performance Nylon™ and AirSoft™ flotation foam, the ThermoSystem Plus Coat is the product to trust when you can't leave safety to chance

FEATURES

- Neoprene beavertail provides hypothermia protection by slowing body temperature cooling through reduced cold water flushing
- Relaxed fit offers enhanced mobility and comfort
- Neoprene wrist closures for weather protection
- Insulated hood easily folds into collar
- Slash hand warmer pockets and extra large pockets at hips
- Underarm ventilation
- SOLAS reflective tape enhances visibility
- Interior radio pocket increases inner storage

COMPACT TACTICAL LIFE PRESERVER FOR LAW ENFORCEMENT

MD3196 / MD3196 SO - Auto Hydrostatic

MD3091 / MD3091 SO - Halkey-Roberts 6F Manual Inflator

The MD3196 is a compact life preserver that has been designed specifically for easy integration with MOLLE (Modular Lightweight Load-carrying Equipment) body armor and tactical vests that use webbing. This low-profile design provides body armor wearers flotation with minimal bulk or interference.

FEATURES

- Hydrostatic inflator with manual backup (MD3196 / MD3196 SO)
- SecureZIP™ closure withstands rigorous activity and is easy to repack
- A three point attachment system provides quick integration to MOLLE style vests
- Lightweight, comfortable and compact
- Can be converted to manual-only use with MA7219, Manual Conversion Cap

FLAP OPEN

INFLATED MD1250 SO
(Belt not included)

TACTICAL INFLATABLE SIDE POUCH PFD AUTO HYDROSTATIC

MD1250 / MD1250 SO

The low profile MD1250 provides flotation capability with minimum bulk or interference using separate independently operated left and right side pouches.

FEATURES

- Can be worn on a standard or padded LE belt or attach directly to Pouch Attachment Ladder System (PALS) webbing on Modular Lightweight Load-carrying Equipment (MOLLE) vests
- Sold as a pair (right and left units). Each unit provides 35 lbs of buoyancy when inflated, for a combined 70 lbs of buoyancy
- Includes Manual Conversion Cap, MA7219, for each side
- MD1250 includes bright yellow inflation cell with SOLAS reflective tape
- MD1250 SO includes olive drab inflation cell with no reflective tape

AIRCRAFT LIFE PRESERVER SURVIVAL VEST

MSV971 LE

Designed specifically for pilots and aircrew to be worn over flight suits, the MSV971 is an inflatable flotation cell integrated into a survival vest and provides 37 lbs of buoyancy.

FEATURES

- Manual inflatable flotation cell
- Survival vest contains specific pockets for stowage of survival gear
- Made with NOMEX® fire resistant fabric and mesh
- Dual chamber system for emergency oral inflation in the event of damage to one chamber
- Integrated lifting harness
- Waist and chest adjustment straps
- Buddy-line and SOLAS whistle

SIZE	S - XXXL
COLOURS	<div style="display: flex; align-items: center;"> <div style="width: 15px; height: 15px; background-color: navy; margin-right: 5px;"></div> Navy Blue </div>
RE-ARM KIT	M15707

TACTICAL AVIATION DRY SUIT SYSTEM

MSF300

The MSF300 is designed for over-water helicopter operations or any other tactical operation where the environment dictates the need for increased hypothermia protection. The MSF300 two-layer modular design minimizes overall weight and bulk, and allows quick donning and doffing through an innovative entry system, and provides a wide array of sizes. When integrated with the Outer Shell, the MSF300 suit system provides a stirred (calm) water Clo value of 0.58.

FEATURES

- Patented adjustable neck seal
- Trim-to-fit neoprene wrist seals
- Integrated one-size sock
- Includes Survival Mitts, Neoprene Hood, and Stowage Bag

SIZE	XS-XXXL
COLOURS	<div style="display: flex; align-items: center;"> <div style="width: 15px; height: 15px; background-color: #808080; margin-right: 5px;"></div> Sage Green (shown) </div> <div style="display: flex; align-items: center;"> <div style="width: 15px; height: 15px; background-color: #FF8C00; margin-right: 5px;"></div> Orange </div>
CLO	Immersed Clo 0.58 (see p. 8)
AUTHORIZATION	US Army (select units), FBI THU
ACCESSORIES	Neoprene Survival Hood (MA7348) Inflatable Survival Mitts (MA7149) Carrying Case (MA7105)

CONSTANT WEAR AVIATION / COUNTER SNIPER COVERALL

MAC100

The MAC100 is a close fitting, durable garment engineered for maximum mobility during operations. This one piece flight suit provides protection against fire, radiant heat, cold weather, cold water immersion and drowning.

FEATURES

- Incorporates our "Total Comfort System" in addition to all the features found on the MAC-10
- Multiple apertures in the foam liner and moisture permeable membrane allow excess body heat and moisture to escape while providing a thermal barrier against fire and cold
- Inflatable thermal mitts and hood included and stored in ankle pockets
- Storage bag included
- Replacement survival mitts, neoprene hood, and a carrying bag are available

CONSTANT WEAR AVIATION COVERALL

MAC10

The MAC-10 is a constant wear, hypothermia protective garment designed specifically for use by pilots and passengers flying over water in light aircraft, helicopters, long range patrol aircraft and even high performance jets.

FEATURES

- Nomex® outer shell and inner lining provide protection from flash fire and flame resistance
- Panels at the seat and knees provide superior abrasion resistance
- Neoprene hood is flame retardant and is stored in ankle pocket
